INTRODUCTION

1

As we begin the second semester of the 2021-22 school year, we invite our Lexington Christian Academy family to pause and reflect on the first semester and all that we accomplished.

After dealing with the COVID-19 pandemic since 2020, we are thankful that this school year seems a bit more "normal." We feel blessed to host in-person classes and events this year. Our students continue to excel academically, spiritually, artistically, and athletically.

Even though we tried to cover as many highlights of the fall semester as possible, we know we have not included everything. We hope you will see in the events that are included as the story of God's continued faithfulness to our school. We are so so grateful to be part of this school community and to watch His continued blessing and provision for LCA. Join us in celebrating a successful fall semester!

ACADEMICS

The 2021-22 Fall Semester provided our students with a variety of programs to collaborate, be creative, and explore their subjects.

STEM AND STEAM CURRICULUM IN PRESCHOOL AND ELEMENTARY

Our preschool classes partnered with Bluegrass Greensource and incorporated fun and educational STEM activities into their classrooms. Kindergarten-5th graders attended a weekly STEAM enrichment class taught by Mrs. Deana Kendall.

Preschool students loved visits from Bluegrass Greensource and learning about different forms of energy.

Fourth graders learned about and tested different ways to clean up an oil spill, including skimming, absorbing, and dispersing.

JUNIOR HIGH SCIENCE AND STEM ACTIVITIES

Students in Mrs. Allen's 7th grade science class extracted DNA from bananas.

Mrs. Whitney Harris' junior high STEM classes spent time studying vital signs and learned to take a manual blood pressure. They also completed an aerospace unit and tested different designs of paper airplanes to see how far they'd travel.

6th Grade Science Fair Winners (L to R): Kennedy Moughamian (1st); Jillian Weaver (2nd); Landon Meadows (3rd); Aubrey Stumbo (4th); and Hannah Spicer (5th)

7th Grade Science Fair Winners (L to R): Emma Kate Hall (1st); Lilly Meyer (2nd); Riley Johnson (3rd); Lauren Spraggins (4th); and Wellington Hadinata (5th)

8th Grade Science Fair Winners (L to R): Kate Jacobs (1st); Ben Schwartz (2nd); William Kellum (3rd); Caleb Jaeger (4th); Chloe Evans (5th)

HIGH SCHOOL SCIENCE AND STEM ACTIVITIES

Chemistry students studied the types of chemical reactions and practiced writing, predicting, and balancing them. At the end of the unit, students used these reactions to cause a chemical change in the pumpkins.

Introduction to Engineering Design students worked through the "Puzzle Design Challenge." Students were challenged to create a desktop novelty item (puzzle cube) from thousands of scrap hardwood cubes that are a byproduct of a company's manufacturing process.

Precalculus students studied polynomial functions, and as an end project, they designed a roller coaster using what they learned. The students had project managers, construction crew members, designers, and engineers to plan, build, and present the project. The students presented these to several judges who scored them on several criteria.

Anatomy students dissected a chicken leg while learning about the parts of a long bone.

READING BUDDIES

Mrs. Ford's second grade students enjoyed the warm weather and sunshine while being reading buddies to Mrs. Jackson's preschool class.

SPANISH

5th grade students in Mrs. Gawel's Spanish class enjoyed learning the Spanish words for different animals.

5TH GRADE ENTREPRENEUR FAIR

Our students learned what it takes to be an entrepreneur. They collaborated with classmates to identify a product to develop, manufacture, market and then sell to their peers.

6TH GRADE ACADEMY AND JUNIOR HIGH

Our 6th-8th grade students had a great start to the school year and enjoyed several new and fun activities.

Students in Mrs. Treesh's World Cultures Class loved hearing from a family who had served as missionaries in China. Students also enjoyed having crepes for their "holiday day."

ACADEMIC EXPLORATION

Mrs. Sparks' 8th grade English class read works by Edgar Allen Poe by flashlights.

The Junior High Academic Team,

Mrs. Benson, Rose Campus Media Center Specialist, hosted a Bookyard BBQ for 6th-8th grade students. It was a great opportunity for students to read different types of books and try selections they might not otherwise choose.

Junior High Spanish students researched different holidays and festivals in Spanish-speaking countries and then prepared presentations and activities based on information they found.

8TH GRADE STUDENTS VISIT ROME, ITALY

Eight LCA 8th graders traveled to Rome, Italy along with Mr. Coleman Marshall, 6th-8th Grade Principal, Mrs. Lea Clarke, 6th-8th Grade Asst. Principal, and parent chaperones during the week of October 2-9, 2021. The group participated in the Global Next Training Course, "The Leadership Paradox – Leading in Unexpected and Extraordinary Ways." Throughout the week, the students talked about the definition of leadership and their leadership styles. From the power of choices to understanding how to lead the world's most difficult people, they were challenged to change the way they think about leadership. The group visited several sites such as Trevi Fountain, Piazza del Popolo, Colosseum, Arch of Constatine, Pantheon, Vatican City, St. Peter's Basilica, and the Sistine Chapel.

ASBURY UNIVERSITY CHRISTIAN SCHOOL PARTNERSHIP

Asbury University will offer enrolling students from Lexington Christian Academy the same tuition as they pay for their high school education. Beginning with the May 2021 class, LCA graduates who choose Asbury for their college journey, a renewable tuition-match for the same rate as the current LCA twelfth grade tuition is now available. This partnership will further provide high school students at LCA the option to participate in dual credit courses which may be offered at the high school, online, or on Asbury's campus.

Lexington Christian Academy Head of School-Superintendent, Dr. Scott Wells, stated "We are excited to partner with Asbury University to expand a variety of opportunities for our students and faculty. Working together, our students will be nurtured and equipped to fulfill God's calling on their lives through Christ-centered education."

CHAPELS

This fall we were able to return to in-person chapel programs. Our preschool-6th grade students celebrated chapel with just their grade level while 7th and 8th grade students met together. For the first time in 18 months, our high school students attended chapel in person!

Students in 5th - 12th grades also have the opportunity to serve on chapel committees. Each week committee members oversee tasks such as greeting, media, praise and worship, community service and prayer. The 6th Grade Academy and Junior High has more than 60 students serving on their Team Chapel this year! We are proud of our student leaders.

BIBLICAL LEADERSHIP 101

Biblical Leadership 101 officially kicked off on September 14, 2021 with a lesson and small group time. Mr. Coleman Marshall, 6th-8th Principal, said he began thinking last year about developing a new leadership program for students in grades 6th-8th that focused on equipping and nurturing Biblical values in them. As he brought others in on the vision, it morphed not only into a leadership development program, but also a mentorship program too.

"Now, we have our own LCA high school students leading our 6th-8th students through the curriculum we developed and created. It was a special morning, and we can't wait to see where God takes this program," said Mr. Marshall.

Fall 2021 also saw a return of in-person service projects. Our students loved getting back out into our communities serving and caring for others.

Both campuses participated in the event, and more than 1,300 students and staff collected 7,431 pounds of non-perishable food items for CAP's pantry efforts.

LCA's 2nd-5th grade students learned about hunger awareness by participating in hunger education stations, which were paired with some fun outside activities. The school's preschool-1st grade students participated in an indoor activity where they each pushed a filled shopping cart along a path to an empty refrigerator. This helped demonstrate to them how the food they donated would help those in need. Students at both campuses also participated in special prayer time for those receiving the donated food.

CHRISTIAN APPALACHIAN PROJECT

A large group from LCA served with Christian Appalachian Project on November 22, 2021 at the Grateful Bread Food Pantry and the Grateful Threadz Clothing Boutique.
